(Here is the second try, hopefully with no HTML this time).

Hi, Gang

Movie alert: tonight on Turner Classic Movies at 8:00 Eastern,
"Petticoat Fever" (1936) with Robt. Montgomery
and Myrna Loy. The review said "A lonesome wireless
operator delays a couple stranded in Labrador".
Hopefully, they will have some good boatanchor radio
equipment on display. But if not, it will still have Myrna Loy!

73,
Ed Knobloch

Very-Low-Frequency Folks,

The Alexanderson Alternator in Grimeton, Sweden, will be on the air in February. They don't usually operate during the Winter as the electric company wants the extra mega-watt or so for electric heat. So this may be a good opportunity to hear them: Signal will be CW/Morse.

We will try to start the Alexanderson alternator on Sunday 19th February 2006 at 09.00 UTC and 13.00 UTC. We will run the transmitter for about half an hour each time.

QSL reports can be given via:

- E-mail to: info@alexander.n.se <<mailto:info@alexander.n.se>>
- or fax to: +46-340-674195
- or via SM bureau
- or direct by mail to: Alexander - Grimeton Veteranradios Vaenner, Radiostationen, Grimeton 72, S-430 16 ROLFSTORP, SWEDEN

See: <http://www.alexander.n.se/> Brit Flag -> Menu Page -> Home Page

Good luck,

Al
